Fail Safe Electric Bolt (Magnetic) - ACDL07

Fail Safe Electric Bolt (Magnetic)

A sturdy electronic bolt lock with a built in magnetic Fail Safe system. This magnetic fail safe system meets the demands of security professionals, and the most rigorous building and fire regulations and safety codes in the world.

With its proven 500,000 cycles this door bolt is Ideal for high traffic access doors and sites. This lock is compatible with the AKCess Pro Server application when used in conjunction with our Door Control Unit.

Suitable for wooden, glass or metal doors.

Made from high strength steel with smooth finish.

Fail Safe system ensures safe exit in an emergency.

Ideal for Fire Door Access Control.

Technical Specifications

Face Plate (mm): 205L x 30W x 40H

Strike size (mm): 100L x 35W x 3W

Bolt size: 16mm diameter stainless steel with 16mm throw

Voltage: DC12V

Start Current: 950mA

Standby Current: 150mA

Holding Force: up to 2000Kg

Auto-lock Time Delay: 0,3,6,9sec.

Signal Output: Door status Output, NC/COM

Induction Distance: 8mm

Operating Temperature: -10~+25C (14-131F)

Operating Humidity: 0~90%(non-condensing)

Weight: 1kg
