

ProDevice Degausser ASM240/ 240+ Irretrievable and fully documented data destruction on magnetic media

How about erasing data once and for all? Sounds good? Well, then the cutting-edge degausser solutions ASM240 and ASM240+ from ProDevice are the perfect solution for you, as these make short work of data destruction on magnetic media. A magnetic field with up to 20,000 Gauss ensures that the data is irretrievably destroyed within less than 30 seconds. The entire degaussing process can be fully monitored and documented (via scan, photo, film and degaussing protocol) at any stage. All products ensure compliance with international mandates, regulations and security guidelines.

HIGHLIGHTS

- Irreversibly erase data from any magnetic media device
- Operated via intuitive software application (mobile app)
- High speed data destruction on the media
- Automated reporting of the entire degaussing process
- Programmable number of erasing cycles with PPMS (Pre-Paid Management System) technology
- Transportation case (trolley) available as an option
- Management of device parameters and protocols via documentation software

COMPLIANCE

- ISO27001 Standard, GDPR Conformity
- PCIDSS (Payment Card Industry), Data Security Standard)
- NIST (National Institute of Standards and Technology), Guidelines for Media Sanitization: NISTSP800-36/NISTSP800-88
- HIPAA (Health Insurance Portability and Accountability Act)
- PIPEDA (Personal Information Protection and Electronic Documents Act)
- HMG CESG IS5

DIMENSIONS & WEIGHT

Dimensions (H x W x D)	465 x 350 x 325 mm
Weight	approx. 38 kg

TECHNICAL SPECIFICATIONS

Magnetic Field	2T = 20,000 Gauss
Data Removal Cycle	30 sec (ASM240), 17 sec (ASM240+)
Charging time between two processes	0 sec
Mobile App	Scanner & Camera
Built-in Camera	ASM240+ only
Reporting Feature	Yes
PPMS Technology	Yes
Power Supply	115V, 230V / 50hz, 60Hz

ORDER DETAILS

PD-21-ASM240-1	Degausser ASM240
PD-21-ASM240P-1	Degausser ASM240+
PD-21-CASE2-1	Transportation Case
